

ALTITUDECODE CAPABILITY STATEMENT

About us

Founded in 2023 by a long-term ex-Amazonian, [AltitudeCode Pty Ltd](#) is an IT Consultancy, Services and Software business headquartered in Brisbane, Australia. Our mission is to help our customers achieve their goals with innovative technology. Our core values are Customer First, Move Quick, and Achieve Outcomes.

Capabilities

Our services:

- Cloud: We are AWS certified, an Amazon Web Services (AWS) Partner Network (APN) Partner, and a Microsoft Azure Partner
- Front-End & Software Development: We provide developers in all major languages and frameworks including React, JavaScript, Python, Flask, PHP, Laravel, and Django.
- Security: We can review your environment and provide recommendations on best practices and a prioritised remediation plan
- Data: We can provide you the platform for creating your data lake and gaining actionable insights quickly.
- Integration: API integration between SaaS platforms and your CRM.

Differentiators

We are different because we've taken the best approaches to cloud adoption and condensed them down to be achievable for SME businesses. Low overheads, fast time to delivery and world-leading technology - This is how we deliver value.

We are seven-time AWS certified holding Security Specialty and both AWS Professional Certifications (DevOps Engineer and Solutions Architect) and Microsoft certified. We are an AWS Partner Network (APN) Partner and Microsoft AI Cloud Partner.

Clients

We are always looking to help more customers and are open to pro-bono work with registered charities. Some of our customers can be seen [on our website](#) and include Brisbane Elder Law, Macpherson Family Law, and Sunshine Coast Elder Law.
